SUBJECT INDEX

A

- Abdominal aorta, congenital atresia of (Schwartz et al.), 605
 - compression, some circulatory effects of morphine-barbiturate anesthesia, artificial respiration, and, based on ballistocardiographic observations on dogs (Scarborough), 651
- Acetyl strophanthidin, effects of, on pulmonary circulation in patients with cardiac failure and mitral stenosis (VIII); studies of pulmonary hypertension (Yu et al.), 235
- Acidosis, respiratory, acute and chronic, treatment of (Taquini et al.), 339
- Activation, ventricular, and vectorcardiographic curve (Sodi-Pallares et al.), 498
- Activity, ventricular, studies on mechanism of. XXI. Origin of depolarization complex with clinical applications (Pipberger et al.), 511
- Adrenal function in infants and children, 159 (B. Rev.)
- Anesthesia, ether, repeated cardiac arrhythmia during (Gold and Smith), 448
 - morphine-barbiturate, artificial respiration, and abdominal compression, some circulatory effects of, based on ballistocardiographic observations on dogs (Scarborough), 651
 - respiration, and abdominal compression experiments (Scarborough), 660
- Announcements, 160, 318, 480, 640, 800, 946
- Anomalous left coronary artery (Jurishica), 429
 - venous connection, partial (Wood et al.), 422
- Aorta, abdominal, congenital atresia of (Schwartz et al.), 605
 - and pulmonary artery, transposition of, with pulmonary stenosis (Cleland et al.), 10
 - complete transposition of. Levoposition of pulmonary artery with pulmonary stenosis (Bret and Torner-Soler), 385
- Aortic incompetence, ventricular septal defect with, simulating patent ductus arteriosus (Claypool et al.), 788
 - insufficiency, quantitative ballistocardiography in (Honig and Tenney), 98
 - syphilitic, atrial fibrillation in (Smith and Stern), 280
 - pulmonary and, valves with atrial septal defect, congenital valvular stenosis of (Horlick and Merriman), 615
 - septal defect, congenital (Berreta et al.), 548
 - stenosis, effect of Priscoline (tolazoline hydrochloride) on arterial pressure pulse contour in (Rosenberg et al.), 118
 - obstructive and relative. Differential diagnosis by phonocardiography, (Aravanis and Luisada), 32
 - valve lesions; pressure events of cardiac cycle in dog (Moscovitz and Wilder), 572
- Arrhythmia, cardiac, repeated, during ether anesthesia (Gold and Smith), 448
- Arterial pressure pulse contour, effect of Priscoline (tolazoline hydrochloride) on, in aortic stenosis (Rosenberg et al.), 118
- Arterialization of coronary sinus, high output failure following (Pappas and Likoff), 588
- Arteries, coronary, of intact dog, catheterization of (Horvath et al.), 138
- Arteriovenous fistulas, schistosomatic, pulmonary, role of; cyanosis in Manson's schistosomiasis (Lopes de Faria et al.), 196
- Artery, coronary, left, anomalous (Jurishica), 429
 - internal mammary, implantation, six months' to six years' experience with coronary artery insufficiency treated by (Vineberg and Walker), 851
 - pulmonary, levoposition of, with pulmonary stenosis; complete transposition of aorta (Bret and Torner-Soler), 385
 - transposition of aorta and, with pulmonary stenosis (Cleland et al.), 10
- Artificial respiration, morphine - barbiturate anesthesia, and abdominal compression, some circulatory effects of, based on ballistocardiographic observations on dogs (Scarborough), 651
- Atherosclerosis, experimental, and hypertension, electrocardiography in (Franco), 69
 - surgeon's view of (Creech), 641
- Atresia, congenital, of abdominal aorta, (Schwartz et al.), 605
- Atrial and nodal tachycardia, simultaneous (Shmagranoff and Jick), 417
 - fibrillation, chronic, combined quinidine and procaine amide treatment of (Goldman), 742
 - in syphilitic aortic insufficiency (Smith and Stern), 280
- flutter with 1:1 A-V conduction corrected by mitral commissurotomy (Willis and Steele), 638
- septal defect, congenital valvular stenosis of pulmonary and aortic valves with (Horlick and Merriman), 615
 - defects complicated by pulmonary hypertension, reduction of cardiac output by ligation of inferior vena cava in patients with (Bruce et al.), 152
- stimulation, double, with reciprocal rhythm (Zakopoulos), 291
- tachycardia, paroxysmal, with A-V block: report of case with unusual orthostatic effects (Kreisle and Kreisle), 308
- vagal escape after crushing parts of sinus node (Scherf et al.), 264

- A-V block, paroxysmal atrial tachycardia with:
 report of case with unusual ortho-
 static effects (Kreisle and Kreisle), 308
 conduction, 1:1, corrected by mitral commis-
 surotomy, atrial flutter with (Willis
 and Steele), 638
 fistula, peripheral, of fifty-seven years' dura-
 tion with refractory heart failure
 (Dorney), 778

B

- Ballistocardiogram, abnormal, of fatigue, effect
 of sedation of (Hakim et al.), 894
 dog, normal, nature of (Scarborough), 653
 influence of limbs on (Honig and Tenney),
 678
 Ballistocardiographic changes during 30 day
 physical training period (Arbeit et al.),
 556
 observations on dogs, some circulatory effects
 of morphine-barbiturate anesthesia,
 artificial respiration, and abdominal
 compression based on (Scarborough),
 651
 Ballistocardiography, quantitative, in aortic
 insufficiency (Honig and Tenney), 98
 Beriberi, prolonged myocardial disease due to,
 with necropsy after 18 years (Jervey),
 621
 Bidirectional tachycardia, alternating (Velas-
 quez and Kelser), 440
 Bio-assay techniques, human, comparative
 potency of mercurial diuretics using
 (Ford et al.), 887
 Block, A-V, paroxysmal atrial tachycardia
 with: report of case with unusual
 orthostatic effects (Kreisle and Kreisle),
 308
 bundle branch, left, Wolff-Parkinson-White
 complexes alternating with (Bauer),
 452
 significance of relation of QRS and T
 waves in: useful electrocardiographic
 sign (Henry et al.), 407
 2:1 exit, paroxysmal tachycardia with (Cal-
 viño et al.), 444
 Blockage, mechanical, evidence, including in
 vivo, observations, suggesting, rather
 than reflex vasospasm as cause of
 death in pulmonary embolization
 (Knisely et al.), 483
 Blood flow, experimental study of, in neuro-
 genic hypotension and hemorrhagic
 shock (Roe and Bacon), 580
 pressure, heart rate and level of (Burton), 809
 Book reviews 159, 318, 478, 640, 799
 Bundle branch block, left, Wolff-Parkinson-
 White complexes alternating with
 (Bauer), 452
 significance of relation of QRS and T
 waves in: useful electrocardiographic
 sign (Henry et al.), 407
 Burger triangle in curve form (Zao et al.), 83
- Capillary bed restriction, cor pulmonale, and
 diffusion insufficiency for oxygen in
 lung, interrelationship between (Luch-
 singer et al.), 106
- Carbon dioxide, sensitivity of respiratory cen-
 ter to, in emphysema and cor pulmo-
 nale: effects of carbonic anhydrase
 inhibition (Taquini et al.), 319
 Carbonic anhydrase inhibition, effects of; sensi-
 tivity of respiratory center to carbon
 dioxide in emphysema and cor pulmo-
 nale (Taquini et al.), 319
 Cardiac arrhythmia, repeated, during ether
 anesthesia (Gold and Smith), 448
 contusion caused by use of jackhammer
 (Chapman and McEachen), 625
 cycle, pressure events of, in dog: aortic
 valve lesions (Moscovitz and Wilder),
 572
 dilatation and hypertrophy (Kerr), 23
 failure and mitral stenosis, effects of acetyl
 strophanthidin on pulmonary circula-
 tion in patients with (VIII); studies
 of pulmonary hypertension (Yu et al.),
 235
 injury presumably due to use of external
 electric cardiac pacemaker in Stokes-
 Adams disease (Reiff et al.), 437
 muscle, damaged or injured, electrical mani-
 festations observed in. Experimental
 study (Alzamora-Castro et al.), 254
 human, nucleotide levels in (Burdette), 746
 output, reduction of, by ligation of inferior
 vena cava in patients with atrial sep-
 tal defects complicated by pulmonary
 hypertension (Bruce et al.), 152
 pacemaker, electric, external, cardiac injury
 presumably due to use of, in Stokes-
 Adams disease (Reiff et al.), 437
 patients, ambulatory, Diamox (acetazole-
 amide) as oral diuretic in (Braveman
 et al.), 284
 surgery, open, indications and contraindi-
 cations for (Zimmerman et al.), 727
 Cardiogenic shock (Agress and Binder), 458
 Cardiopathies congénitales, 640 (B. Rev.)
 Cardiovalvular disease, rheumatic, chronic,
 electrocardiographic patterns simu-
 lating coronary occlusion in patients
 with (Master et al.), 50
 sounds, high sensitivity pickup for (Groom
 and Sihvonen), 592
 Catheterization, clinical and, findings, sum-
 mary of, in 50 cases of ventricular
 septal defect (Table I) (Hubbard et
 al.), 212
 heart, left, base line for (Roy et al.), 753
 left or right heart, simple methods for record-
 ing intracardiac electrocardiograms
 and phonocardiograms during (Lui-
 sada and Liu), 531
 of coronary arteries of intact dog (Horvath
 et al.), 138
 of heart and large vessels, on methods and
 complications in, with and without
 contrast injection (Bagger et al.), 766
 right heart, contributions of, to physiology
 and medicine, with some observations
 on physiopathology of pulmonary
 heart disease (Richards), 161
 Central shunts, diagnosis of, from abnormalities
 of peripheral dye dilution curves
 (Wiederhielm and Bruce), 205

C

- Central shunts, diagnosis of—Cont'd
terminal error, Wilson's false right ventricular hypertrophy pattern due to (Osborne and Dower), 722
- Chest deformity in children with congenital heart disease (Maxwell), 368
- Child, young, electrocardiographic changes resembling myocardial infarction in (Doherty and Dodd), 782
- Children, adrenal function in infants and, 159 (B. Rev.)
with congenital heart disease, chest deformity in (Maxwell), 368
- Chlorpromazine, diuretic effect of, in patients with congestive heart failure (Cohen), 907
- Chordae tendineae, ruptured, correction by "mitral purse-string," mitral regurgitation due to (Davila et al.), 940
- Circuit, switching, for three-plane stereovectorcardiography (Helm), 602
- Circulation, interrelations between ventilation and (Attinger), 837
pulmonary, and renal function, effect of single intravenous dose of Scillaren B on, in patients with rheumatic heart disease (Bucht et al.), 376
effects of acetyl strophanthidin on, in patients with cardiac failure and mitral stenosis (VIII); studies of pulmonary hypertension (Yu et al.), 235
its control in man, with some remarks on methodology (Cournand), 172
- Circulatory effects, some, of morphine-barbiturate anesthesia, artificial respiration, and abdominal compression based on ballistocardiographic observations on dogs (Scarborough), 651
- Collagen diseases, 318 (B. Rev.)
- Commissurotomy, mitral, atrial flutter with 1:1 A-V conduction corrected by (Willis and Steele), 638
recurrence of tight mitral stenosis syndrome after (Soulié et al.), 695

 mitral, effects of acetyl strophanthidin on pulmonary circulation in patients with cardiac failure and (VIII); studies of pulmonary hypertension (Yu et al.), 235
 syndrome, tight, recurrence of, after commissurotomy (Soulié et al.), 695
 ventricular gallop in. Its mechanism and significance (Contro), 246
 pulmonary, levoposition of pulmonary artery with; complete transposition of aorta (Bret and Torner-Soler), 385
 transposition of aorta and pulmonary artery with (Cleland et al.), 10
 recurring, discussion of basic factors in development of (Soulié et al.), 703
 valvular, congenital, of pulmonary and aortic valves with atrial septal defect (Horlick and Merriman), 615
- 2-Step exercise stress test, electrocardiogram of (Manning), 823
- Stereovectorcardiography, three-plane, switching circuit for (Helm), 602
- Stimulation, atrial, double, with reciprocal rhythm (Zakopoulos), 291
- Stokes-Adams disease, cardiac injury presumably due to use of external electric cardiac pacemaker in (Reiff et al.), 437
- Stroke volume, ventricular, right and left, effects of respiration on electrocardiogram in relation to differences in (Lamb), 342
- Surgery, cardiac, open, indications and contraindications for. (Zimmerman et al.), 727
 mitral, pitfall in selection of patients for; confusion of tricuspid incompetence with mitral insufficiency (Schilder and Harvey), 352
- Switching circuit for three-plane stereovectorcardiography (Helm), 602
- Syndrome, electrocardiographic, of short P-R interval and broad QRS complexes (Hejtmancik and Herrmann), 708
 tight mitral stenosis, recurrence of, after commissurotomy (Soulié et al.), 695
- Syphilitic aortic insufficiency, atrial fibrillation in (Smith and Stern), 280
- T
- T waves, QRS and, significance of relation of, in bundle branch block: useful electrocardiographic sign (Henry et al.), 407
- T-a wave of adult electrocardiogram: expression of pulmonary emphysema (Wasserburger et al.), 875
- Tachycardia, atrial and nodal, simultaneous (Shmagranoff and Jick), 417
 paroxysmal, with A-V block: report of case with unusual orthostatic effects (Kreisle and Kreisle), 308
 bidirectional, alternating (Velasquez and Kelser), 440
 paroxysmal, with 2:1 exit block (Calviño et al.), 444
- Terminal error, central, Wilson's, false right ventricular hypertrophy pattern due to (Osborne and Dower), 722
- Test, 2-step exercise stress, electrocardiogram of (Manning), 823
- Triangle, Burger, in curve form (Zao et al.), 83
- Tricuspid incompetence, confusion of, with mitral insufficiency—pitfall in selection of patients for mitral surgery (Schilder and Harvey), 352
- Transposition, complete, of aorta. Levoposition of pulmonary artery with pulmonary stenosis (Bret and Torner-Soler), 385
 of great vessels, corrected (Schaefer and Rudolph), 610
- TsE loop in hypercholesterolemia (Karni), 269
- U
- Ultrafiltration, glomerular, protoplasmic basis of (Hall), 1
- Ultrasound, reflected, or echography, visualization of excised human heart by means of (Wild et al.), 903
- V
- Vaccination, smallpox, fatal myocarditis following (Dalgaard), 156
- Vagal, atrial, escape after crushing parts of sinus node (Scherf et al.), 264
- Valve, aortic, lesions; pressure events of cardiac cycle in dog (Moscovitz and Wilder), 572
 Hufnagel, with note on hemodynamic effects of; quantitative ballistocardiography in aortic insufficiency (Honig and Tenney), 98
- Valves, pulmonary and aortic, with atrial septal defect, congenital valvular stenosis of (Horlick and Merriman), 615
- Valvular insufficiency, pulmonic: clinical and hemodynamic study (Angelino et al.), 182
 stenosis, congenital, of pulmonary and aortic valves with atrial septal defect (Horlick and Merriman), 615
- Valvuloplasty, mitral, role of digitalis in (Burack et al.), 863
- Vascular disorders, peripheral, 159 (B. Rev.)
- Vasospasm, reflex, evidence, including in vivo observations, suggesting mechanical blockage rather than, as cause of death in pulmonary embolization (Knisely et al.), 483
- Vectorcardiogram, spatial, direct, normal (Kornbluth and Allenstein), 396
 respiratory changes of, recorded with different lead systems (Simonson et al.), 919
- Vectorcardiographic curve, ventricular activation and (Sodi-Pallares et al.), 498
- Vena cava, inferior, congenital absence of hepatic portion of (Grover et al.), 794
 reduction of cardiac output by ligation of, in patients with atrial septal defects complicated by pulmonary hypertension (Bruce et al.), 152

- Venous connection, anomalous, partial (Wood et al.), 422
 pulse, clinical value of (Cossio and Buzzi), 127
- Ventilation and circulation, some interrelations between (Attinger), 837
- Ventricular activation and vectorcardiographic curve (Sodi-Pallares et al.), 498
 activity, studies on mechanism of. XXI. Origin of depolarization complex with clinical applications (Pipberger et al.), 511
 gallop in mitral stenosis. Its mechanism and significance (Contro), 246
 hypertrophy, left, reliability of high voltage of QRS complex as diagnostic sign of, in adults (Grubschmidt and Sokolow), 689
 pattern, right, false, due to Wilson's central terminal error (Osborne and Dower), 722
 septal defect: correlative clinical and physiologic study of fifty cases (Hubbard et al.), 210
 with aortic incompetence simulating patent ductus arteriosus (Claypool et al.), 788
 defects, isolated; indications and contraindications for open cardiac surgery (Zimmerman et al.), 727
 stroke volume, right and left, effects of respiration on electrocardiogram in relation to differences in (Lamb), 342
- Vessels, great, corrected transposition of (Schaefer and Rudolph), 610
- Vessels—Cont'd
 large, on methods and complications in catheterization of heart and, with and without contrast injection (Bagger et al.), 766
- Voltage, high, of QRS complex, reliability of, as diagnostic sign of left ventricular hypertrophy in adults (Grubschmidt and Sokolow), 689
- Volume
 conductors, experimental study of multiple dipole potentials and effects of inhomogeneities in (Okada), 567
 right and left ventricular stroke, effects of respiration on electrocardiogram in relation to differences in (Lamb), 342
- W
- Warming and cooling focus of origin, response of coupling of extrasystoles to (Scherf et al.), 561
- Water and electrolytes, excretion of, effects on renal hemodynamics and; Pyribenzamine (tripelennamine) (Moyer et al.), 643
- Wave, T-a, of adult electrocardiogram: expression of pulmonary emphysema (Wasserburger et al.), 875
- Waves, QRS and T, significance of relation of, in bundle branch block: useful electrocardiographic sign (Henry et al.), 407
- Wilson's central terminal error, false right ventricular hypertrophy pattern due to (Osborne and Dower), 722
- Wolff-Parkinson-White complexes alternating with left bundle branch block (Bauer), 452
